Dear Rev. Garman

### **Installation of Disabled Access Ramp at St John the Evangelist Episcopal Church**

Thank you for contacting the AHSS with the plans and details in order to provide disabled access for visitors to St John's church.

On examination of the plans, whilst we would have preferred the railings to be simpler and more contemporary in design, the AHSS Dundee and Angus Panel has no objection to the installation of the ramp and supports efforts by the church to increase accessibility.

Yours sincerely,
